S70 SERIES

SLIDING DOOR SYSTEM

The S70 Series sliding door system is designed for clean, unmarked wooden sliding doors, with hangers mounted to the door's top edge.

Compatible with 35–45mm thick wood doors, crafted from durable SS304 or carbon steel, and fully adjustable for smooth operation.

Multiple hanger Configurations (S70-W1201 to W1207) work with the TF-1 track system, supporting up to 180 lbs doors in wall or ceiling-mounted installations.

Model #	S70-W1201
Function	 Wood
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm]
Track No	TF-1
Material	SS304 / Carbonsteel

Model #	S70-W1202
Function	 Wood
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm]
Track No	TF-1
Material	SS304 / Carbonsteel

Model #	S70-W1203
Function	 Wood
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm]
Track No	TF-1
Material	SS304 / Carbonsteel

Model #	S70-W1204
Function	 Wood
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm]
Track No	TF-1
Material	SS304 / Carbonsteel

Model #	S70-W1205
Function	 Wood
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm]
Track No	TF-1
Material	SS304 / Carbonsteel

Model #	S70-W1206
Function	 Wood
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm]
Track No	TF-1
Material	SS304 / Carbonsteel

Model #	S70-W1207
Function	 Wood
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm]
Track No	TF-1
Material	SS304 / Carbonsteel

S60 SERIES

SLIDING DOOR SYSTEM

The S60 Series is built for universal compatibility and dependable performance, ideal for both wood and glass sliding doors. Crafted from durable SS304 stainless steel, it supports door thicknesses from 35–51mm (wood) and 8–12mm (glass), with 8 distinct configurations to suit every door weight and installation requirement.

Fully compatible with TR, TH, and TF series tracks, the system features a low-profile, minimalist design that complements modern interiors, while precision-engineered rollers ensure smooth, quiet operation. Rated to carry doors up to 240 lbs, the S60 Series delivers versatile, reliable performance for residential and commercial projects alike.

Model #	S60-W2401	S60-G2401
Function	 Wood	 Glass
Door Thickness	1-9/16" [40mm] 1-3/4" [45mm] 2" [51mm]	5/16" [8mm] ~ 1/2" [12mm]
Track No	TR-1 / TR-2 TH-1 / TH-2 TF-2 / TF-3	
Material	SS304	

Model #	S60-W2402	S60-G2402
Function	 Wood	 Glass
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm] 2" [51mm]	5/16" [8mm] ~ 1/2" [12mm]
Track No	TR-1 / TR-2 TH-1 / TH-2 TF-2 / TF-3	
Material	SS304	

Model #	S60-W2403
Function	 Wood
Door Thickness	1-3/8" [35mm] 1-9/16" [40mm] 1-3/4" [45mm] 2" [51mm]

S40 SERIES

SLIDING DOOR HANGER SYSTEM

The S40 Series balances functional innovation with elevated design, tailored for projects where performance and aesthetic detail go hand in hand. Standout features include distinctive five-spoke decorative rollers and adjustable slotted hangers, which allow flexible mounting positioning to simplify on-site installation and alignment.

Crafted from SS304 stainless steel, the system supports both wood (35–51mm) and glass (8–12mm) doors, and is available in two premium finishes: US32D satin and US32 bright polished. Compatible with all standard track systems and rated for up to 240 lbs doors, the S40 Series blends style, installation ease, and robust performance for high-end spaces.

Model #	S40-W2401	S40-G2401
Function	 Wood	 Glass
Door Thickness	1-9/16" [40mm] 1-3/4" [45mm] 2" [51mm]	5/16" [8mm] ~ 1/2" [12mm]
Track No	TR-1 / TR-2 TH-1 / TH-2 TF-2 / TF-3	
Material	SS304

S50 SERIES

SLIDING DOOR SYSTEM

The S50 Series sets a new benchmark for quiet sliding performance with its exclusive “Wheel-Mounted Shock Absorbing Washer” system. Unlike conventional arm-mounted dampers, this integrated structure absorbs impact directly at the roller-track interface, delivering near-silent operation, reducing vibration, and minimizing wear on both hardware and track for extended service life.

Crafted from durable SS304 stainless steel, the system supports both wood (35–51mm) and glass (8–12mm) doors, with two premium finishes available: US32D satin and US32 bright polished. Compatible with TR-1/TR-2 tracks and rated for up to 240 lbs doors, the S50 Series combines streamlined design, reliable performance, and superior noise reduction for modern residential and commercial spaces.

Hardwood management team recognizes and deeply understands that innovation and continuous improvement are key driven force for the company. We keep investing in R&D activities and have clearly defined growing annual budget for it. Engineers are using modern software, to design internal structure and esthetic appearance.

We keep following new trends, products and techniques in the door control industry. Every quarter Hardwood has regular seminar on new products / trends and each year we set a plan to launch numerous new products.

Customer-Focused Innovation

We collaborate closely with our customers to turn ideas into practical, high-value hardware solutions.

Advanced Engineering & Simulation

Using 3D CAD, FEA, and motion simulation, we validate design performance and optimize for real-world applications.

Prototyping & Testing

In-house prototyping and testing capabilities support design verification, functional evaluation, and performance validation to ensure reliability and product quality before mass production.

Design for Manufacturability (DFM)

We evaluate every detail to ensure efficient production, consistent quality, and cost-effective results.

Quality & Reliability

Ensured through strict material control, standardized processes, and comprehensive testing at every production stage to deliver consistent performance and durability.

Continuous Improvement

We invest in tools, talent, and processes to continuously drive innovation and improve performance outcomes.
